

W5

Clavister Wolf Series – high performance, excellent scalability and robust functionality

The Clavister W5 is the perfect security solution for large headquarters or as a main enterprise firewall. The Clavister W5 delivers stunning performance, up to 16 Gbps of next-generation firewall security in a single 1U 19" rack mount. With dedicated management and high-availability ports (two 1GbE RJ45), the Clavister W5 is the easiest network security solution when you need to make a bullet-proof, clustered solution.

This makes the Clavister W5 an ideal solution for organizations that need premium network security.

Key Features

Powerful, feature-rich firewall

- The Clavister W5 delivers powerful, feature-rich firewall features, including IPsec/SSL VPN tunnels, Application Control, advanced routing and firewall performances up to 16 Gbps. And high availability (HA) support is included for free. Buy a second Clavister W5 and configure them as a cluster. No hidden costs, no extra charge.

Support for Clavister Security Subscription

- Being secure means to have it all. Clavister W5 supports Clavister Security Subscription, which include all our product and support services. With Clavister Security Subscription your installation is always secure and fully served.

Key Benefits

Excellent value for money

- The Clavister W5 packs a lot of processing power into the beautiful, purpose-built 1U 19" rack mount. This cost-effective solution offers multi-Gigabit firewall security for a wide range of network applications.

Easy to use, deploy and manage

- Setting up and configuring your Clavister W5 is easier than ever. In fact, much of the process is completely automated. With included support for Clavister InControl, Clavister Web Management and Clavister CLI, you choose your way of working.
