

Clavister Virtual Series – excellent performance, feature-rich and efficient

The Clavister Virtual Series is a set of network security products designed for virtual and cloud-based security, offering excellent performance, powerful security features and resource efficient. The Clavister V Series offers powerful security features for your virtual environment. Easily deploy your Clavister V Series in market-leading VMware virtualization environments. Its minimal footprint and extremely low resource requirements makes the Clavister V Series an optimal solution for all types of virtual and cloud-based network security solutions.

Key Features

Low resource requirements

- In virtualization and cloud-based solutions, resources need to be handled with care. The Clavister V Series is extremely efficient with available resources.

Powerful firewall

- The Clavister V Series packs enough firewall power to cover a wide range of applications, including IPsec/SSL VPN tunnels, Application Control, advanced routing and firewall performances up to 10 Gbps.

Support for Clavister Security Subscription

- Being secure means to have it all. Clavister E7 supports Clavister Security Subscription, which include all our product and support services. With Clavister Security Subscription your installation is always secure and fully served.

Key Benefits

Easy to use, deploy and manage

- The Clavister V Series is a easy to use, deploy and manage. Many functions can be streamlined using scripts for automated deployment. Use Clavister InControl to centralize manage all your Clavister V Series products also reduces management overhead.

Unified Centralized Management

- It is important for any organization to be able to manage remote access devices and branch offices. Clavister V Series is easily managed using Clavister InControl, our centralized management system, making it easy to keep a unified security model across your organization.

Clavister Virtual Series Specifications

<i>Performance</i>	Clavister V3	Clavister V5	Clavister V7	Clavister V9
Firewall Performance (Gbps)	1	3	5	10
VPN Performance (Gbps)	1	2	3	5
Concurrent Connections	100 000	250 000	500 000	1 000 000
Concurrent VPN Tunnels (SSL VPN/IPsec)	500/500	1 000/1 000	1 500/1 500	2 000/2 000
Ethernet Interfaces	Up to 3	Up to 5	Up to 7	Up to 10
Virtual Interfaces (VLAN 802.1q)	32	128	512	1 024
Virtual Routers	10	15	25	50
Form Factor	Software			
Supported Virtual Platform	VMware ESXi			
Clavister cOS	Clavister cOS Core			
Warranty	All Clavister Virtual Series products include a two (2) years standard RMA warranty.			

Specifications subject to change without further notice.
